Summary

I am a web developer with 5+ years of experience in creating and maintaining web applications. I specialize in developing websites using HTML, CSS, JavaScript, and other web development technologies. My experience includes developing responsive websites for a variety of clients, from small businesses to large corporations. I have a passion for creating user-friendly and visually appealing websites that are optimized for performance. I am also experienced in troubleshooting and debugging web applications to ensure they are running smoothly. In addition to my technical skills, I have excellent communication and problem-solving skills that allow me to work effectively with clients and colleagues.
